

Makers Gallery

The Makers Gallery & Bistro delivers fresh food in a flexible contemporary gallery setting, and sells bespoke Scottish and International artists, craftmakers and artisan products.

They provide employability training and personal development opportunities for unemployed people experiencing barriers to employment. This includes structured skill development, real on the job training activities, work placements and individual support. Alongside this trainees are learning business skills through both development and sale of products such as jams and chutneys, jewellery making kits, and upcycled furniture.

All profits are gifted to parent company Reachout With Arts In Mind.
